

# KU Leuven - Tohoku Univ. Symposium on Systems Neuroscience

September 19, 2019

Seiryō Auditorium

Tohoku University, Seiryō Campus B10

## Speakers

- 
- 9:40 - 10:15 **Manabu Tashiro** (Tohoku Univ.)  
"PET application of exercise physiology and health sciences"
- 10:15 - 11:05 **Patrick Dupont** (KU Leuven)  
"Reproducibility of graph measures of the pain and default mode network"
- 11:05 - 11:40 **Kazuhiko Yanai** (Tohoku Univ.)  
"PET molecular imaging for neurodegenerative disorders: basic and clinical development"
- 13:00 - 13:35 **Michiko Kano** (Sukawa Clinic, Tohoku Univ.)  
"The role of mPFC/ACC in stress regulation in health and stress-related disease- collaborative studies with KU Leuven"
- 13:35 - 14:25 **Lukas Van Oudenhove** (KU Leuven)  
"Neural pain signatures: one or many?"
- 14:25 - 15:00 **Ken-Ichiro Tsutsui** (Tohoku Univ.)  
"The role of medial and dorsal frontal cortices in the regulation of mood, motivation, and social behavior: a monkey TMS study"
- 15:15 - 15:50 **Shin Fukudo** (Tohoku Univ.)  
"Influence of psychosocial stress and gut microbiota on brain-gut interactions in irritable bowel syndrome"
- 15:50 - 16:25 **Kyoko Suzuki** (Tohoku Univ.)  
"The neural basis of texture processing in humans: a clinical study"
- 16:25 - 17:15 **Peter Janssen** (KU Leuven)  
"The cortical network processing three-dimensional object structure in the human and nonhuman primate brain"
