SDGS-ID Seminar

社会にインパクトある研究_C3感染症超克 共催

Learning lessons from COVID-19 and Preparing for the next pandemic.

Feb.24,2023 (Fri) 12:00-13:00

[Zoom] [Language] English

Registration

Registration D/L: FEB. 22 (Wed) 17:00

<https://forms.gle/YajWaj7zpmLdUuuD6>

<Program>

12:00-12:05 Opening
12:05-12:35 Talk
12:35-12:55 Q & A
12:55-13:00 Wrap up

Speaker

Hitoshi Oshitani

(Professor, Graduate School of Medicine, TU
Director of SDGS-ID)

Outline

COVID-19 has been causing a devastating impact in almost all countries worldwide, including high-, middle- and low-income countries. Despite several significant outbreaks of emerging diseases in the past decades, none of the countries were well prepared for a pandemic. The COVID-19 situation is still evolving, and uncertainties remain with COVID-19. At the same time, there is the eminent risk of a future pandemic. We must start preparing for the next pandemic based on the lessons learned from COVID-19.
